Tribal Specific Threat Intelligence

For Native American and Alaskan Native Tribal Government, Operations and Enterprises

TRIBALISAC.ORG

OUR MISSION

Our mission is to improve the overall security posture of tribes with an emphasis on cyber security, and including all-hazard threats and risks.

We foster a collaborative environment for tribes to share and mitigate threat information, share best practices, and serve as a conduit for security information sharing.

OUR OBJECTIVES

- To share community security threat information and intelligence in a safe and secure environment among Native American and Alaskan Native tribes.
- To improve the security posture of all tribes to safeguard their sovereignty.
- To share the best practices, tools, assessments and education to help each tribe protect their own resources including critical infrastructure located on tribal trust land, to benefit national public interest and tribal citizens.
- To provide a platform for providing more opportunity, education, resources and sharing activities to the benefit of Native Americans.
- To maintain a trusted managed sharing between other industry ISACs, the U.S. Department of Homeland Security, and private sector partners.

WHY TRIBAL-ISAC?

✓ **Tribes and tribal enterprises are targets and have been facing increased cyber attacks.**

✓ **Tribes are most vulnerable to the same attacks that were effective on similar tribes or tribal enterprises.**

✓ **Tribes understand the type of risks and attacks that tribes face better than anyone.**

✓ **Choosing to remain isolated only allows the "bad actors" to continue the tactics.**

Take the first step towards a secure future for your tribe. Join Tribal-ISAC today and let's build a resilient future together!

Join forces with like-minded tribal organizations and take a stand against cyber threats with the powerful Tribal Information Sharing and Analysis Center (ISAC), created by tribes, for tribes.

BECOME A TRIBAL-ISAC MEMBER

1. Strength in Numbers: Together, we form a shield against cyber threats. By sharing real-time intelligence, we create a united front, protecting each other from evolving dangers.

2. Safeguard Your Sovereignty: Protect your tribe's sensitive data and preserve your sovereignty. Tribal-ISAC offers tailored solutions that respect and uphold your unique cultural and regulatory requirements.

3. Expert Guidance: Gain access to industry-leading cybersecurity experts who understand the specific challenges faced by tribal organizations. Benefit from their insights and strategies to fortify your defenses.

4. Actionable Insights: Stay ahead of the threat landscape with actionable insights and threat alerts delivered directly to your organization. Proactively address vulnerabilities before they become exploitable.

5. Collaborative Community: Be part of a tight-knit community where tribes share knowledge, exchange best practices, and support each other in the face of adversity.

6. Elevate Cyber Resilience: Empower your team with exclusive training resources, workshops, and webinars, enhancing their cybersecurity skills to defend your tribe with confidence.

DIRECT MEMBER BENEFITS INCLUDE:

- Secure access to trusted Collaboration Portal and Tribal-ISAC Platform.

- Access to security minded peers from tribes across the nation for collaboration.

- Weekly / daily automated (tribal relevant) threat information feeds with actionable insights sent directly to your inbox.

- Monthly reports designed to improve security posture across your organization.

- Access to Tribal-ISAC created webinars and training opportunities.

- Access to new security resources curated by working groups and obtained by Tribal-ISAC through a shared funding model.

- Access to information received from Tribal-ISAC's federal, State and commercial information sharing partners.

- Tribal-ISAC membership includes TribalHub benefits.
